Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Campbell et al. (US Pat. #6,213,848).

Regarding claim 1, Campbell et al. disclose a manufacturing method of polishing process layers formed above a surface of a semiconductor wafers comprising the step of: transmitting a process condition of a product wafer from a host computer to a semiconductor manufacturing apparatus (see fig. 3, elements 36-37, col.4, line 55-col. 5, line 10); automatically processing a dummy wafer in said semiconductor manufacturing apparatus in accordance with a predetermined process condition (see col. 6, lines19-24); and processing said product wafer in said semiconductor

Art Unit: 2125

manufacturing apparatus in accordance with said transmitted process condition of the product wafer (see col. 6, lines 25-54).

Regarding claims 2-4, Campbell et al. further disclose the steps of measuring a thickness of a film formed on said product wafer by a film thickness measuring device mounted to said semiconductor manufacturing apparatus; transmitting the data of said measured film thickness and the process data of said semiconductor manufacturing apparatus to said host computer; and determining in said host computer the process condition of a product wafer processed later in said semiconductor manufacturing apparatus based on said transmitted film thickness data and process data (col. 6, 18-54).

Regarding claims 5-8, these method claims are rejected for the same reasons applied above rejected claims 1-4.

Regarding claims 9-12, these method claims are rejected for the same reasons applied above rejected claims 1-4.

Regarding claims 13-17, these system claims are rejected for the same reasons applied above rejected claims 1-4.

Conclusion

1. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Douglas Lee, whose telephone number is (571) 272-3745. The examiner can normally be reached on Monday-Friday from 8:00AM- 4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, *Leo Picard*, can be reached on (571) 272-3749 or via e-mail addressed to [*leo.picard@uspto.gov*]. The fax number for this Group is (571) 273-8300.

Communications via Internet e-mail regarding this application, other than those under 35 U.S.C. 132 or which otherwise require a signature, may be used by the applicant and should be addressed to [*doug.lee@uspto.gov*].
